-----	--

ARTICLE 14
PROFESSIONAL DEVELOPMENT & SABBATICAL LEAVE

14.1 Professional Development Funds.

- (a) The University supports the development of its workforce as teachers, scholars, and practitioners by providing resources and programs. Such support includes but is not limited to internal research grants, financial support including travel support, orientation programs, instructional technology workshops, and speakers’ series.
- (b) Professional Development funds are disbursed by the Provost or his/her designee based on appropriateness of the request and budget availability. ..
- (c) Within one month of the University’s budget receiving final approval, the faculty will be informed of the budget allocation overall for Professional Development for the year and the budget allocation to each academic department. The Provost’s office will also budget for a “Professional reserve fund” that is at minimum 20% of the total budget for Professional Development. This fund will be used, at the Provost’s discretion, to enhance Professional Funds at the request of faculty and/or an academic department chair.
- (d) Faculty that are in their terminal year of employment (as a result of non-reappointment, resignation, or layoff) are not eligible to receive professional development funds unless the use of the professional development funds was approved prior to the date on which the faculty member was informed that they would be non-reappointed or laid off and the disbursed funds are not recoverable.

14.2 Sabbatical Leave.

(a) General Principles.

- (1) A sabbatical leave is intended to provide faculty members with opportunities for professional and scholarly development that will contribute to their achievements and enhance the value of their service to the University.
- (2) A sabbatical recognizes prior teaching and scholarly achievements at the University and anticipates future teaching and scholarly contributions. It is not a reward for service.
- (3) Sabbaticals must provide the University with professional value, and offer faculty with opportunities for professional renewal, planned travel, study, formal education, research, faculty development, certification, or other experiences.

(b) Eligibility for Sabbatical Leave.

- (1) The University allows full-time faculty who have completed at least six years of full-time service with the University and has either been promoted or has been reappointed (excepting reappointment as a result of a Preliminary Review) while at the University to be eligible to apply for a

- 40 sabbatical.
- 41 (2) Ordinarily, sabbaticals are granted only if, at the expiration of such leave,
- 42 the applicant would be eligible for continued service on the faculty of the
- 43 school for at least one year before retirement or contract expiration.
- 44 (3) The University does not guarantee the opportunity to take a sabbatical leave.
- 45 (4) Maximum Sabbaticals. Under normal circumstances, the number of
- 46 individuals on sabbatical will not exceed one (1) individual in a
- 47 department/program area and, across the faculty, may not exceed 7% of the
- 48 full-time faculty in any single semester.
- 49 (5) Additional Sabbatical Leave. Employees shall not normally be eligible to
- 50 take another paid sabbatical until six (6) years of continuous employment
- 51 are completed following the prior sabbatical.
- 52 (c) Application for Sabbatical Leave.
- 53 (1) The Provost will announce to eligible faculty members that they may submit
- 54 a preliminary application for sabbatical on or before December 15. Two
- 55 announcements will be made, one on or before November 15, and one or
- 56 before Dec. 1.
- 57 (2) The sabbatical preliminary application will state which semester, or
- 58 semester(s) are requested for sabbatical, the faculty activity for sabbatical,
- 59 where the sabbatical will take place, and the professional benefit to the
- 60 faculty member and the university of the sabbatical.
- 61 (3) The Provost's office will inform the faculty by January 15 if they should
- 62 prepare a full sabbatical proposal. This determination will be made on the
- 63 likelihood of the university granting the sabbatical if the proposal was
- 64 accepted.
- 65 (4) A complete application for sabbatical is due in the Provost's office by
- 66 February 15 preceding the academic year in which the sabbatical is
- 67 requested. The proposal will be reviewed by the sabbatical review
- 68 committee described in section (d).
- 69 (5) The application must include the following:
- 70 a. a well-considered, suitably detailed written plan for the requested
- 71 research or professional development activity, thoroughly
- 72 describing its professional value to the University and faculty
- 73 member. This written plan should be at least two (2) but not more
- 74 than five (5) pages in length, using 11-point font and one-inch
- 75 margins.
- 76 b. an updated curriculum vitae, and;
- 77 c. a statement from the Department Chair, which indicates whether the
- 78 applicant's absence will or will not unreasonably hinder the delivery
- 79 of the curriculum.

- 80 (d) Sabbatical Review Committee and Presidential Approval.
- 81 (1) Sabbatical approval is based on the candidate’s proposal, its value to the
82 University, and the impact to the candidate’s department.
- 83 (2) The committee shall consist of the Provost, one Vice Provost, and two (2)
84 faculty members, one (1) chosen by the Faculty Representative Council and
85 one (1) chosen by the Provost.
- 86 (3) The committee will evaluate the sabbatical proposals and make a written
87 recommendation to the President (or designee), who has final decision
88 authority to approve a sabbatical. The committee recommendation will be
89 made on or before March 15, included in this recommendation will be a
90 statement on the impact of the faculty member’s absence on the department
91 and the university.
- 92 (4) Notwithstanding any other provision, the Provost, based on new
93 information and prior to the President’s final determination, can make a
94 recommendation that a sabbatical proposal be denied if it is determined that
95 the faculty member’s absence will seriously impair the interests of the
96 University. However, prior to making a recommendation for denial, the
97 Provost will provide the applicant with an opportunity to mitigate any such
98 impairment.
- 99 (5) The President (or designee) shall provide his or her decision in writing to
100 the applicant and the committee no later than June 1 for an annual sabbatical
101 or the following Fall semester sabbatical ~~or October~~ or October 1- for the
102 Spring semester sabbatical.
- 103 (6) Mutual Consent. The letter from the President, or designee, to the applicant
104 approving the leave represents a commitment by the University and the
105 faculty member. Therefore, any subsequent changes to the plans for the
106 leave require the written agreement of both parties.
- 107 (e) Terms and Conditions for Sabbatical Leave
- 108 (1) A sabbatical may involve absence for an academic year at half-salary (fall-
109 spring or spring-fall) or a semester (fall or spring) at full salary. An
110 academic year sabbatical can be for fall-spring or for spring-fall. Individuals
111 on sabbatical leave retain their benefits as if they are full-time employees.
- 112 (2) A faculty member who accepts a sabbatical is expected to return to the
113 University for at least two semesters (a spring and a fall) of service
114 immediately after the conclusion of the sabbatical.
- 115 (3) If a faculty member does not return to the University immediately following
116 the leave, the faculty member is responsible for compensating the school
117 for the salary and benefits, if any, received during the sabbatical.
- 118 (4) Within sixty (60) days of returning to academic duties at the University after
119 a sabbatical leave, the faculty member shall submit a detailed report of
120 activities during the leave to the Provost.
- 121 (5) Upon request, the University will provide UFF with a report on sabbaticals

p.4	Florida Poly/UFF
UFF-FPU Proposal v4 2024-2027 CBA June 4, 2024	

122 for the previous academic year that includes a list of faculty members who
123 went on sabbatical during that academic year, the number of applicants
124 during that academic year for a sabbatical, and list of the applicants
125 approved for a sabbatical.

126 **14.3 Professional Development Leave.**

- 127 (a) Professional Development Leave (PDL) is designed to provide eligible employees
128 with opportunities for professional renewal, educational travel, study, formal
129 education, research, faculty development, certification, or other experiences of
130 professional value.
- 131 (b) Full-time employees who have completed three (3) or more years of full-time
132 service with the University are eligible to apply for such leave.
- 133 (c) Professional Development Leave is not compensated and is not benefited by the
134 University.
 - 135 (1) The eligibility of employees to receive compensation pursuant to a contract
136 or grant is subject to the terms of the contract or grant.
 - 137 (2) However, in the case of non-full-time status, while supported part-time by
138 a contract or grant, the individuals' benefits will be funded at the fraction of
139 full-time represented by the grant activity.
- 140 (d) Procedures for application and approval shall be the same as those followed for
141 Sabbatical Leave.
- 142 (e) Under normal circumstances, no more than one (1) employee in a department/unit
143 may be awarded professional development leave at the same time.
