A. APPLICABILITY and PURPOSE:

This policy is applicable to all withdrawn students who have previously been admitted to and attended the University and want to be readmitted to the University to complete their initial degree.

B. DEFINITIONS

Readmissions Committee: reviews cases where students are applying for readmission to the University after a period of absence due to suspension. In addition, the readmissions committee considers cases where students may be suspended due to poor academic performance such as failure to progress in their degree program or accumulating too many withdrawals as defined by policy. The committee consists of a Registrar's Office representative, two Vice Provosts, and one Academic Department Chair. Appointments to the committee are made by the Provost or his/her designee.

C. POLICY STATEMENT:

Any student who was at one time admitted to and enrolled in courses at the University and subsequently withdrew from the University or was administratively withdrawn from the University must reapply to the University for admission. Readmission to the University is not guaranteed. The student must meet the University's current admission requirements. Readmission decisions are governed by the University's Readmission Committee and are not appealable. Upon readmission, the course catalog in effect on the student's date of readmission will apply.

In addition, the readmission committee will consider cases where a student potentially will be placed on suspension. These cases include: students that have not followed the directives provided by the Academic review Board, students that continue to not make appropriate academic progress, and students that have exceeded the number of allowed withdrawals defined by policy.
