Student Satisfaction Inventory Highlights

Tom Dvorske, Kathryn Miller
Spring 2018

Student Life/Communication

Enriched Student Life

- Opened 2.4 million Student Development Center (SDC)
- Enhanced working relationship with SGA
- Rebuilt administrative structure of clubs and orgs
- Increased and reorganized student development staff to better serve students

Improved Communication

- Started the Weekly Phoenix
- Started monthly student forums
- Started asking in meetings; Do we need to notify students of this?

Academic Standards & Instruction

Raising academic standards and improving instruction means that your degree is more valuable, that you are better candidates in the marketplace than peers at other institutions.

Actions	Impacts
Common Exams	Ensure that all sections of critical courses prepare students at a consistent and rigorous standard
Syllabus standards and review	Ensures that each class includes the right standards and deliverables
Pre-requisite model built on developing skills over-time	Ensures that students who stay in sequence have greater probability of succeeding in subsequent classes
ABET Accreditation Reviews for Engineering and Computer Science Programs	Validates program quality, identifies key areas for improvement and demonstrates to external stakeholders that Florida Poly programs are globally competitive.
