

**MEMORANDUM OF UNDERSTANDING
RE: COVID-19 HEALTH EMERGENCY**

During the current health emergency brought on by the coronavirus pandemic, UFF-FPU and the Florida Polytechnic University Board of Trustees are committed to maintaining the productive and efficient operation of the University in a safe and healthy environment. UFF-FPU and Florida Poly Board of Trustees are committed to working together to promote the appropriate solutions to meeting our mission, which is strongly focused on providing education to our students, despite the difficulties that COVID19 has presented to the university and its faculty. To this end, we agree to the following terms and conditions:

1. Faculty shall be provided the option of excluding Spring 2020 Student Assessment of Instruction and any other subjective evaluation regarding remote instructional effectiveness in Spring 2020 of their course delivery from their 2020-2021 annual performance evaluation. Discussion of DFW rate and Course GPA may be considered, but a direct comparison of remote and non-remote, with the expectation that they are equivalent, is not appropriate.
 - a. If a faculty member chooses to exclude Spring 2020 Student Assessment of Instruction and any other subjective evaluation of teaching regarding remote instructional effectiveness in Spring 2020 from the 2020-2021 annual performance evaluation, Spring 2020 Student Assessment of Instruction and any other subjective evaluation of teaching regarding remote instructional effectiveness in Spring 2020 will likewise be excluded from consideration for reappointment or promotion. In reappointment and/or promotion consideration, discussion of DFW rate and Course GPA may be considered BUT direct comparison of remote and non-remote delivery, with the expectation that they are equivalent, is not appropriate.
 - b. If a faculty member chooses not to exclude the items listed in 1a from their performance in Spring 2020 from the 2020-2021 annual performance evaluation, the evaluation will be based on the Amended Evaluation Guidelines which account for the challenges of remote instruction, assessment, and examination.
 - c. Faculty members must declare their choice regarding the evaluator's use of Student Assessment of Instruction and any other subjective evaluation of teaching regarding remote instructional effectiveness in Spring 2020 when they submit the Faculty activity report for the 2020-2021 evaluation period.
 - d. When a faculty member submits their Faculty Activity Report for the 2020-2021 period, they may also, as an addendum to the research section of the FAR, include a statement detailing specific impacts of the COVID19 pandemic on their teaching, research activity, and service. Such a statement will be carefully considered by the evaluator.
 - e. Faculty members that were prevented from conducting research due to circumstances related to the COVID19 pandemic (Ex. Access to labs, travel restrictions, business closures, etc.) shall not be negatively evaluated as a result of those impacts. However, if possible, faculty members must make reasonable attempts to fulfill their obligations as much as possible, using remote tools that are available to them, during this time. A failure to make reasonable attempts to fulfill those obligations may be considered by the evaluator.
2. Faculty who have a teaching assignment during Summer shall receive Amended Evaluation Guidelines which account for the challenges of remote instruction, assessment, and examination. These guidelines are attached to this MOU as an appendix.

3. Florida Polytechnic University policy 1.0061P (Adopted June 3, 2015), and federal and state intellectual property law, shall apply to all course content and course delivery materials created as a result of the mandated transition to online instruction.
 - a. As to Recordings of Remote Instruction ("Recordings") produced for remote instruction during paid time of the faculty member, which are not produced using significant University *facilities or equipment*:
 - i. Such Recordings are considered to have been developed using significant University Resources under FPU policy 1.0061P(G).
 1. However, if the faculty member wishes to own their individual intellectual property rights as to such Recordings, the faculty member must make a disclosure in writing to the Provost's Office, consistent with the disclosure requirements described FPU policy 1.0061P(M).
 2. Upon receipt of the disclosure, the University will waive its rights in the disclosed Recordings, pursuant to FPU Policy 1.0061P(T), contingent upon a perpetual nonexclusive, royalty-free grant to the University to use the Recordings for educational and research purposes.
 - ii. University provided computers or tablet devices are not considered as significant facilities nor as significant equipment.
 - b. The University will not waive its rights for Recordings of Remote Instruction or intellectual property which are:
 - i. Developed during paid time of the faculty member and are also produced using significant University facilities or equipment, or
 - ii. Developed in the course of, or pursuant to, other agreement with the University.
 - iii. Developed specifically as a work-for-hire.
4. The impacts of COVID-19 on the Florida Polytechnic University community are changing constantly. Nothing in this memorandum shall be construed as a waiver of the Florida Polytechnic University's right to implement measures pursuant to directives from appropriate state and/or federal authorities or that the Florida Polytechnic University otherwise deems essential to protecting the health and safety of students, faculty, and staff. Nothing in this memorandum shall be construed as a waiver of the Florida Polytechnic University's obligation to engage in bargaining over the impacts of such decisions upon request by UFF – Florida Poly.

Appendix A – Amended Annual Evaluation Guidelines for Faculty 2020-2021 (SPRING 2020)

Appendix B – Amended Annual Evaluation Guidelines for Faculty 2020-2021 (SUMMER/FALL 2020)

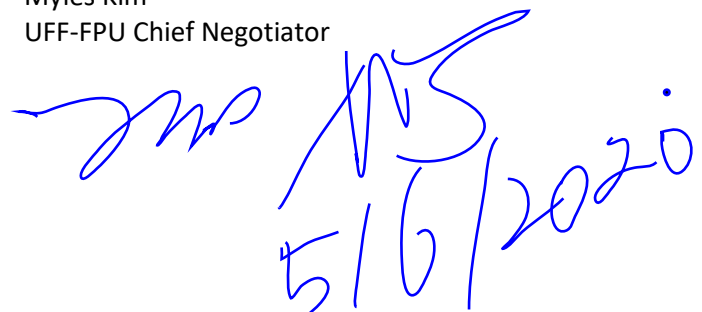

Appendix C – Online Starter Kit Overview

Myles Kim
UFF-FPU Chief Negotiator

Amended Annual Evaluation Guidelines for Faculty 2020-2021 (For the Remote Instruction period that started on March 16 through the end of the Spring 2020 semester, not to be used for a face-to-face instruction period)

(adopted based on Department Suggestions and Discussion/Recommended by Evaluation Panel)

Evaluators must consider the rank when evaluating teaching, research, and service; said consideration is tied to the expectations based on rank in the faculty handbook

Faculty must comply with and follow instructions of department chair regarding teaching scheduling and standards, research procedures and compliance, and service requirements.

Overall scores consider the fare form credit given.

Evaluation Key:

Unsatisfactory (U)	Performance that is clearly substandard. Performance improvement plan is mandated, and termination may be appropriate.
Needs Improvement (NI)	Performance that is below a reasonable expectation for the faculty rank that an individual holds
Meets Expectations (ME)	Performance is sound for the faculty rank held and within reasonable expectations for the person's job description.
Exceeds Expectations (EE)	Performance is sound for the faculty rank held and within reasonable expectations for the person's job description. The individual has distinguished themselves in some way by performing at a level that is above a normal expectation for their faculty rank.
Exemplary (E)	Performance is sound for the faculty rank held and within reasonable expectations for the person's job description. The individual has truly done something that is outstanding and that is not present in the majority of the faculty.

Teaching:

University teaching and student learning encompass much more than the hours faculty members spend in the classroom. Teaching also involves keeping up with the field (both technical and changes in pedagogy), planning lectures, creating instructional materials, appropriately utilizing the CANVAS LMS, constructing tests, grading papers, mentoring/interacting with students, participating in tutorials, recitations, and formal teaching committees, working with graduate students, supervising student educational assistants (SEAs), conducting office hours, and participating in professional development programs. Because many aspects of teaching remain invisible to students, their evaluations alone are inadequate to provide comprehensive and convergent evidence of teaching effectiveness. In addition to student assessments, some departments may have obtained evaluations from individuals who both understand the subject matter and recognize the intellectual effort and pedagogical merit involved in various instructional activities.

Evaluation Philosophy: Evaluations are earned by faculty and supported by the evidence (both quality and quantity) that a faculty member is performing his or her duties at a certain level. To achieve a “Meets Expectations” rating, a faculty typically *must* perform the appropriate core duties in the teaching that were assigned. An evaluator may consider elements such as number of students and student credit hours supported, number of different courses delivered, and also should consider how effective the communication with students is based on a range of elements including the course syllabus, SAI results and comments, and use of CANVAS.

Elements to consider:

Evidence:

- Courses taught
- Student Credit hours produced
- DFW rate
- Course GPA
- SAI – used carefully noting the transition to the online environment
- Thesis or projects directed, where applicable
- Thesis or projects committee, where applicable
- Instructional materials sufficient to demonstrate performance ratings below

Elements that are core duties and typically, where appropriate, are present to achieve MEETS EXPECTATIONS performance (based on evidence supplied in the dossier):

- Syllabus timeliness, construction, and compliance with required standards
- Presence to deliver course AND be appropriately available to students (e.g. office hours) – for the remote period, evidence of an ongoing effort during the remote period that connects with students on a weekly, or more frequently, basis.
- Participates and cooperates appropriately in multi section courses
- Curricular Rigor; evidence based upon items such as alignment between outcomes and assessments, syllabus, course materials, examinations, and examination practice
- Grading aligns as a fair assessment of mastery of material and is fair to students, noting the challenges of remote instruction and assessment .
- Grading and examination policies and execution lead to proper and fair assessment, noting the challenges of remote instruction and assessment .
- Grades assignments and exams in a timely manner, noting the challenges of remote instruction and assessment, faculty must make a good faith effort to make remote examination and proctoring work properly but are not accountability for system bugs and difficulties.
- Adheres to appropriate student learning outcomes to ensure we provide a quality education: evidenced by examinations and completion of planned course material
- Submits midterm and final grades consistently and on-time, maintains approved syllabus and updated accurate gradebook in Canvas, submits assessment reports and other documentation consistently and on time - noting that there might be some careful changes in syllabi that are appropriately coordinated with other sections.

- Submits attendance reports as required, tracks student attendance in Canvas or appropriate verifiable method
- Appropriate use of SEAs as per department and academic affairs guidelines and demonstrating appropriate responsibility in the delivery of the course
- Appropriate interactions, consistent with university policy and guidelines, with students and appropriate professional behavior in communication with students
- Demonstration of ongoing and reasonable improvements in courses, and a plan for further improvements, that have been delivered multiple times by the faculty member
- Executes teaching duties with honesty and integrity

Elements that may be used by an evaluator to justify an Exceeds Expectations or Exemplary rating This must be very carefully considered in the context of the institution and is specifically not a list-based, check-box exercise. If a faculty member is clearly demonstrating effectiveness in all of the areas for consideration under meets expectations, with respect to their workload, consideration of exceeds expectation may be appropriate. Evidence presented must support teaching and pedagogical excellence that is distinct from the Meets Expectations requirements. The evaluator must judge the effectiveness of the individual's contribution, and determine if it warrants a higher than Meets Expectation rating.

Examples might be:

- Successful course delivery innovation – has attracted students' interests, increasing retention and curricular progression. Demonstration of effective results in the remote environment, indications of strong foundations for remote delivery.
- Curricular Innovation: New course development, innovation in pedagogy that is significant
- Active Participation in curriculum development for new concentration, or a new degree program
- For Exemplary the faculty has truly done something that is outstanding and that is not present in the majority of the faculty such as:
 - Successful Curricular innovation – has attracted interests from other universities, increasing enrollment
 - Demonstrable impact on student retention and facilitating progression to timely graduation
 - Extraordinary leadership of execution in remote instruction period as evidenced by documented contribution to departmental or institutional efforts that support multiple sections or faculty.

Research:

Research at Florida Poly is evolving as a core duty for the faculty that do not hold the title instructor. While research can be hard to measure, as a core duty, faculty need to demonstrate activity and success in this realm. If faculty do not have time to do research, this will be indicated on their FARE form in terms of the credit granted; where there is no time, the rating should be N/A. Where there is time, the rating expectation must be adjusted to reflect the amount of time available. For instance, if a person has only a small amount of credit available for research, achieving Meets Expectations performance requires demonstrated progress commensurate with the time allocated. If there is more time, the progress must be more significant. Regardless of time available, an above Meets Expectations score requires the presence of items from the evidence list identified below. Research must advance the mission of the university and support the program and concentration(s) in which the faculty member teaches.

The remote instruction period likely produced time availability constraints so that the time available for research may have been impacted. In addition, those with laboratory efforts likely will exhibit slower progress due to lower availability of laboratory time and the personnel to serve laboratory projects. Evaluators will use their judgement as they assess how the broader COVID-19 pandemic might lead to unforeseen consequences that may negatively affect research productivity (e.g. canceled conferences, inability to travel or access necessary resources, etc.).

Elements to consider:

Evidence:

- Refereed Publications
- Non-refereed publications
- Books, book contributions
- Presentations or invited talks
- Funded projects
- Works in Progress where there is work product as evidence
- Proposals submitted
- Editorial position in a national level journal
- Students supported/advised and/or student effort in research programs
- Research activity with students that has an outcome
- Other activity pre-approved by Department Chair and/or Division Director.

Elements that are core duties and typically must be present, as demonstrated by evidence, to achieve MEET EXPECTATIONS performance: Examples are not exhaustive, but all activity must demonstrate impact and relevance to university and field.

Core element that must be present:

- Adequate progress on clearly defined, multi-year research plan (ideally explicitly laid out, but may be evident in other ways)
- Executes research duties with honesty and integrity

Other core elements that are appropriate to consider

- Appropriate pursuit/success in developing a funded research program,
- Works/Proposals in progress reflect substantial progress toward completion and promise of likely success.

- Recognizable major publication (s) or significant grant funding with progress on grant commensurate with grant size
- Substantial industry project with significant impact on research, development, application (where the faculty member secured prior approval, followed appropriate procedures, and advances the research and/or educational mission of the University, department, and/or program.)
- Publication in high impact factor journals
- Research awards such as grants
- Honorific research societies
- Compliance with all rules, regulations, disclosures, and requirements associated with research, including following institutional protocols for engagement with external partners or potential partners.
- Research presentation or publication that receives public recognition and/or publicity, or impacts public policy or enhances the University's economic impact
- Successful publication or presentation at a national conference or significant contribution to a state or regional conference.
- Any of the items in the "Facts" column that hold demonstrable national or international impact or advance the program, department, and university's reputation.

Elements that may be used by an evaluator to justify an Exceeds Expectations or Exemplary rating

This must be very carefully considered in the context of the institution and is specifically not a list based, check box exercise. Evidence presented must support research excellence that is distinct from the Meets Expectations requirements.

. Examples might be:

- Significant research award from a competitive proposal process
- Publication activity that is of high quality and above the norm for the department

Service

Service comes in a variety of capacities. The basic levels are departmental, division-level (where applicable), and institutional. Institutional service includes University committees but also leadership and advising of student organizations, clubs, or professional societies. Service also includes externally-focused service in the form of community relationships or formal efforts to solicit industry engagement in either curricular or research capacities, or unfunded consulting relationship with local, state, or federal government, private entities, or industry. A third broad category is professional service, which may include affiliations with state or national organizations as an organizer, peer reviewer, society fellow, or other activity that advances the discipline or profession and demonstrates recognition of the faculty-member's expertise and authority.

Elements to consider:

Evidence:

- Nature of service assignments
- Student organizations supervised
- Community-related service
- Industry or other agency service
- Professional service
- Demonstrated contribution and impact of contribution to service roles.

Elements that are core duties and typically must be present to achieve and provide evidence to MEET EXPECTATIONS performance:

- Service remains a core duty that during remote instruction is fulfilled with remote work.
- Executes service duties with honesty and integrity and demonstrates collegiality in performing service roles
- Regular, documented active participation in assigned service duties
- Participation in department meetings
- Demonstrable results or progress made on external service activity
- Significant, demonstrated contribution to internally assigned service roles that enable the unit or organization to fill a gap, solve a problem, or advance in some important way (e.g. contribution to curriculum advisory board relationship).
- Successfully develop or lead co-curricular project such as speaker-series or other events or competitions.
- Initiate meaningful service contribution to program, department, or University.
- Sponsor a new student organization or grow an existing one.
- Enable the organization to achieve positive impact on campus community or a professional society that advances the culture of learning among students in the discipline. All rules must be followed when leading student clubs or organizations.
- Foster significant one-time relationship or potential for extended relationship with external entity that benefits the program, department, or University through research, curriculum, in new or existing areas.
- Provide professional service that raises the profile of the program, department, and university.
- Member of grant review committee for governmental agency or foundation, editorial board, journal reviewer or co-editor

Elements that may be used by an evaluator to justify an Exceeds Expectations or Exemplary rating

- This must be very carefully considered in the context of the institution and is specifically not a list based, check box exercise. Evidence presented must support service excellence that is distinct from the Meets Expectations requirements.

An example might be:

- Significant, demonstrated contribution to internally assigned service roles that enable the unit or organization to fill a gap, solve a problem, or improve productivity

Amended Annual Evaluation Guidelines for Faculty 2020-2021 (Summer and Fall 2020)

(adopted based on Department Suggestions and Discussion/Recommended by Evaluation Panel)

Evaluators must consider the rank when evaluating teaching, research, and service; said consideration is tied to the expectations based on rank in the faculty handbook

Faculty must comply with and follow instructions of department chair regarding teaching scheduling and standards, research procedures and compliance, and service requirements.

Overall scores consider the fare form credit given. DO NOT FORGET to rate summer activity for teaching and or research (presuming that it was compensated by the University).

Evaluation Key:

Unsatisfactory (U)	Performance that is clearly substandard. Performance improvement plan is mandated, and termination may be appropriate.
Needs Improvement (NI)	Performance that is below a reasonable expectation for the faculty rank that an individual holds
Meets Expectations (ME)	Performance is sound for the faculty rank held and within reasonable expectations for the person's job description.
Exceeds Expectations (EE)	Performance is sound for the faculty rank held and within reasonable expectations for the person's job description. The individual has distinguished themselves in some way by performing at a level that is above a normal expectation for their faculty rank.
Exemplary (E)	Performance is sound for the faculty rank held and within reasonable expectations for the person's job description. The individual has truly done something that is outstanding and that is not present in the majority of the faculty.

Teaching:

University teaching and student learning encompass much more than the hours faculty members spend in the classroom. Teaching also involves keeping up with the field (both technical and changes in pedagogy), planning lectures, creating instructional materials, appropriately utilizing the CANVAS LMS, constructing tests, grading papers, mentoring/interacting with students, participating in tutorials, recitations, and formal teaching committees, working with graduate students, supervising student educational assistants (SEAs), conducting office hours, and participating in professional development programs. Because many aspects of teaching remain invisible to students, their evaluations alone are inadequate to provide comprehensive and convergent evidence of teaching effectiveness. In addition to student assessments, some departments may have obtained evaluations from individuals who both understand the subject matter and recognize the intellectual effort and pedagogical merit involved in various instructional activities.

Evaluation Philosophy: Evaluations are earned by faculty and supported by the evidence (both quality and quantity) that a faculty member is performing his or her duties at a certain level. To achieve a “Meets Expectations” rating, a faculty typically *must* perform the appropriate core duties in the teaching that were assigned. An evaluator may consider elements such as number of students and student credit hours supported, number of different courses delivered, and also should consider how effective the communication with students is based on a range of elements including the course syllabus, SAI results and comments, and use of CANVAS.

Elements to consider:

Evidence:

- Courses taught
- Student Credit hours produced
- DFW rate
- Course GPA
- SAI – used carefully noting the transition to the online environment
- Thesis or projects directed, where applicable
- Thesis or projects committee, where applicable
- Instructional materials sufficient to demonstrate performance ratings below

Elements that are core duties and typically, where appropriate, are present to achieve MEETS EXPECTATIONS performance (based on evidence supplied in the dossier):

- Syllabus timeliness, construction, and compliance with required standards
- Presence to deliver course AND be appropriately available to students (e.g. office hours) – If the class, or a portion of the class is delivered remotely, evidence of an ongoing effort during the remote period that connects with students on a weekly, or more frequently, basis.
- Participates and cooperates appropriately in multi section courses
- Curricular Rigor; evidence based upon items such as alignment between outcomes and assessments, syllabus, course materials, examinations, and examination practice
- Grading aligns as a fair assessment of mastery of material and is fair to students
- Grading and examination policies and execution lead to proper and fair assessment
- Grades assignments and exams in a timely manner, faculty must make a good faith effort to make remote examination and proctoring work properly but are not accountable for system bugs and difficulties. For remote instruction, Faculty must maintain strong engagement by publishing expectations for and adhering to grading timeliness. Only in rare instances should assignments or exams not be returned within ten days.
- Adheres to appropriate student learning outcomes to ensure we provide a quality education: evidenced by examinations and completion of planned course material
- Submits midterm and final grades consistently and on-time, maintains approved syllabus and updated accurate gradebook in Canvas, submits assessment reports and other

documentation consistently and on time - noting that there might be some careful changes in syllabi that are appropriately coordinated with other sections.

- Submits attendance reports as required, tracks student attendance in Canvas or appropriate verifiable method
- Appropriate use of SEAs as per department and academic affairs guidelines and demonstrating appropriate responsibility in the delivery of the course
- Appropriate interactions, consistent with university policy and guidelines, with students and appropriate professional behavior in communication with students
- Demonstration of ongoing and reasonable improvements in courses, and a plan for further improvements, that have been delivered multiple times by the faculty member
- Executes teaching duties with honesty and integrity
- For remote delivery, provides course organization with Canvas that adheres to the Florida Poly Canvas starter kit model. The course organization must clearly provide instructions for how material will be delivered, how interactions will be managed (asynchronous, synchronous, tools, and expectations for interactions, including instructor response-time to student inquiries), and how assessment will be handled. In addition, expectations and clear instructions for students must be present in syllabus and in the course materials especially in terms of expectations for student participation in synchronous activities.
- If during Fall 2020 instruction transitions from remote to live or vice-versa, evaluators must consider the disruption such a transition will cause. In particular, evaluators must treat SAIs, DFWs, and course GPAs with a great deal of care as students will likely find such a transition challenging.

Elements that may be used by an evaluator to justify an Exceeds Expectations or Exemplary rating This must be very carefully considered in the context of the institution and is specifically not a list-based, check-box exercise. If a faculty member is clearly demonstrating effectiveness in all of the areas for consideration under meets expectations, consideration of exceeds expectation may be appropriate, but is not required. Evidence presented must support teaching and pedagogical excellence that is distinct from the Meets Expectations requirements. The evaluator must judge the effectiveness of the individual's contribution, and determine if it warrants a higher than Meets Expectation rating.

Examples might be:

- Successful course delivery innovation – has attracted students' interests, increasing retention and curricular progression. Demonstration of effective results in the remote environment, indications of strong foundation for remote delivery.
- Curricular Innovation: New course development, innovation in pedagogy that is significant
- Active Participation in curriculum development for new concentration, or a new degree program
- For Exemplary the faculty has truly done something that is outstanding and that is not present in the majority of the faculty such as:
 - Successful Curricular innovation – has attracted interests from other universities, increasing enrollment
 - Demonstrable impact on student retention and facilitating progression to timely graduation
 - Extraordinary leadership of execution in remote instruction period as evidenced by documented contribution to departmental or institutional efforts that support multiple sections or faculty.

Research:

Research at Florida Poly is evolving as a core duty for the faculty that do not hold the title instructor. While research can be hard to measure, as a core duty, faculty need to demonstrate activity and success in this realm. If faculty do not have time to do research, this will be indicated on their FARE form in terms of the credit granted; where there is no time, the rating should be N/A. Where there is time, the rating expectation must be adjusted to reflect the amount of time available. For instance, if a person has only a small amount of credit available for research, achieving Meets Expectations performance requires demonstrated progress commensurate with the time allocated. If there is more time, the progress must be more significant. Regardless of time available, an above Meets Expectations score requires the presence of items from the evidence list identified below. Research must advance the mission of the university and support the program and concentration(s) in which the faculty member teaches.

The remote instruction period likely produced time availability constraints so that the time available for research may have been impacted. In addition, those with laboratory efforts likely will exhibit slower progress due to lower availability of laboratory time and the personnel to serve laboratory projects. Evaluators will use their judgement as they assess how the broader COVID-19 pandemic might lead to unforeseen consequences that may negatively affect research productivity (e.g. canceled conferences, inability to travel or access necessary resources, etc.).

Elements to consider:

Evidence:

- Refereed Publications
- Non-refereed publications
- Books, book contributions
- Presentations or invited talks
- Funded projects
- Works in Progress where there is work product as evidence
- Proposals submitted
- Editorial position in a national level journal
- Students supported/advised and/or student effort in research programs
- Research activity with students that has an outcome
- Other activity pre-approved by Department Chair and/or Division Director.

Elements that are core duties and typically must be present, as demonstrated by evidence, to achieve MEET EXPECTATIONS performance: Examples are not exhaustive, but all activity must demonstrate impact and relevance to university and field.

Core element that must be present:

- Adequate progress on clearly defined, multi-year research plan (ideally explicitly laid out, but may be evident in other ways)
- Executes research duties with honesty and integrity

Other core elements that are appropriate to consider

- Appropriate pursuit/success in developing a funded research program,
- Works/Proposals in progress reflect substantial progress toward completion and promise of likely success.
- Recognizable major publication (s) or significant grant funding with progress on grant commensurate with grant size
- Substantial industry project with significant impact on research, development, application (where the faculty member secured prior approval, followed appropriate procedures, and advances the research and/or educational mission of the University, department, and/or program.)
- Publication in high impact factor journals
- Research awards such as grants
- Honorific research societies
- Compliance with all rules, regulations, disclosures, and requirements associated with research, including following institutional protocols for engagement with external partners or potential partners.
- Research presentation or publication that receives public recognition and/or publicity, or impacts public policy or enhances the University's economic impact

- Successful publication or presentation at a national conference or significant contribution to a state or regional conference.
- Any of the items in the “Facts” column that hold demonstrable national or international impact or advance the program, department, and university’s reputation.

Elements that may be used by an evaluator to justify an Exceeds Expectations or Exemplary rating

This must be very carefully considered in the context of the institution and is specifically not a list based, check box exercise. Evidence presented must support research excellence that is distinct from the Meets Expectations requirements.

. Examples might be:

- Significant research award from a competitive proposal process
- Publication activity that is of high quality and above the norm for the department

Service

Service comes in a variety of capacities. The basic levels are departmental, division-level (where applicable), and institutional. Institutional service includes University committees but also leadership and advising of student organizations, clubs, or professional societies. Service also includes externally-focused service in the form of community relationships or formal efforts to solicit industry engagement in either curricular or research capacities, or unfunded consulting relationship with local, state, or federal government, private entities, or industry. A third broad category is professional service, which may include affiliations with state or national organizations as an organizer, peer reviewer, society fellow, or other activity that advances the discipline or profession and demonstrates recognition of the faculty-member's expertise and authority.

Elements to consider:

Evidence:

- Nature of service assignments
- Student organizations supervised
- Community-related service
- Industry or other agency service
- Professional service
- Demonstrated contribution and impact of contribution to service roles.

Elements that are core duties and typically must be present to achieve and provide evidence to MEET EXPECTATIONS performance:

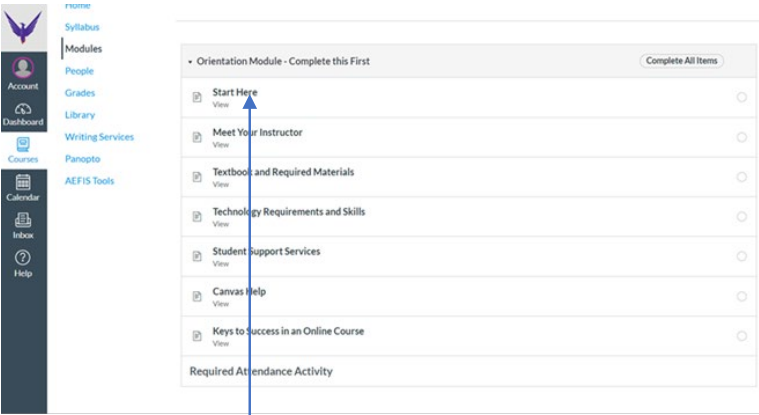

- Service remains a core duty that during remote instruction is fulfilled with remote work.
- Executes service duties with honesty and integrity and demonstrates collegiality in performing service roles
- Regular, documented active participation in assigned service duties
- Participation in department meetings
- Demonstrable results or progress made on external service activity
- Significant, demonstrated contribution to internally assigned service roles that enable the unit or organization to fill a gap, solve a problem, or advance in some important way (e.g. contribution to curriculum advisory board relationship).
- Successfully develop or lead co-curricular project such as speaker-series or other events or competitions.
- Initiate meaningful service contribution to program, department, or University.
- Sponsor a new student organization or grow an existing one.
- Enable the organization to achieve positive impact on campus community or a professional society that advances the culture of learning among students in the discipline. All rules must be followed when leading student clubs or organizations.
- Foster significant one-time relationship or potential for extended relationship with external entity that benefits the program, department, or University through research, curriculum, in new or existing areas.
- Provide professional service that raises the profile of the program, department, and university.
- Member of grant review committee for governmental agency or foundation, editorial board, journal reviewer or co-editor

Elements that may be used by an evaluator to justify an Exceeds Expectations or Exemplary rating

- This must be very carefully considered in the context of the institution and is specifically not a list based, check box exercise. Evidence presented must support service excellence that is distinct from the Meets Expectations requirements.

An example might be:

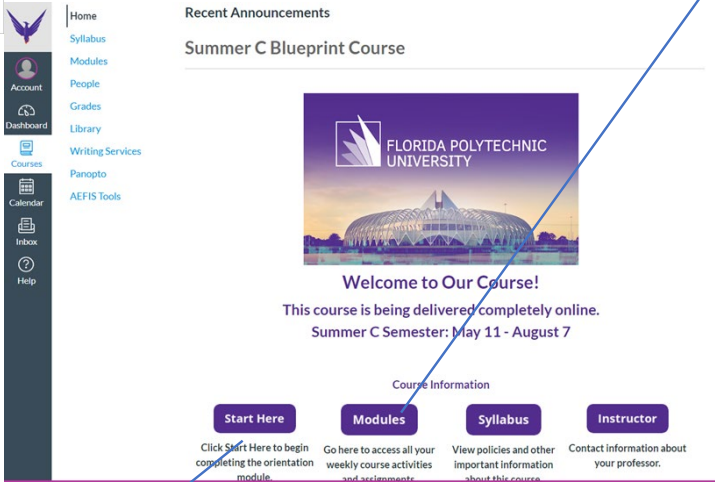

- Significant, demonstrated contribution to internally assigned service roles that enable the unit or organization to fill a gap, solve a problem, or improve productivity

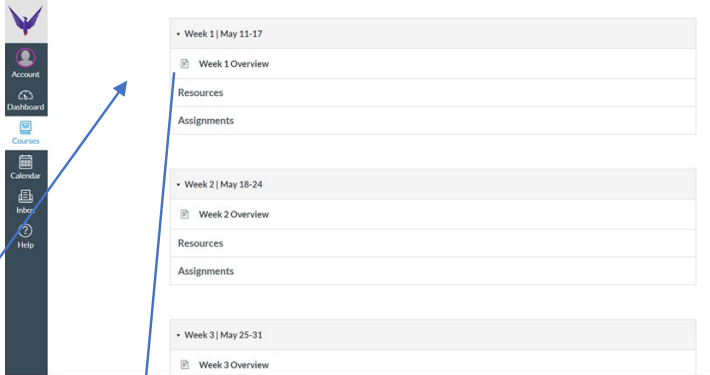

The image shows the Canvas LMS navigation sidebar on the left with links for Home, Syllabus, Modules, People, Account, Dashboard, Courses, Calendar, Inbox, and Help. The main content area displays the 'Orientation Module - Complete this First' section with a list of items: Start Here, Meet Your Instructor, Textbooks and Required Materials, Technology Requirements and Skills, Student Support Services, Canvas Help, Keys to Success in an Online Course, and Required Attendance Activity. A blue arrow points from the 'Start Here' link in the list to the 'Start Here' link in the sidebar.

Florida Poly Canvas Starter-Kit Overview

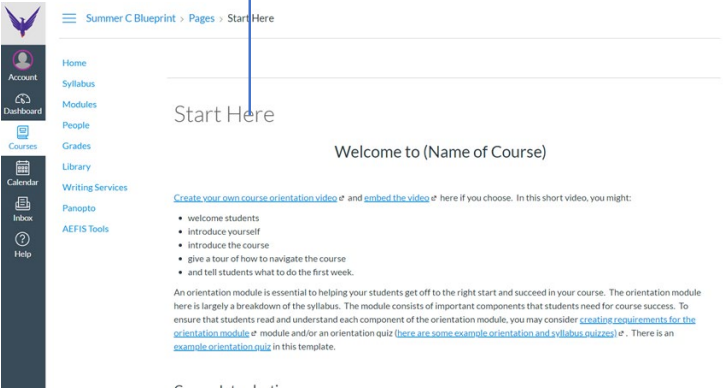

The starter kit is built from the homepage and is organized by modules that standard components such as overview to week (or content “chunk”), resources, and assignments. This slide shows relationships among pages in brief. Subsequent slides show detail.

The image shows the Canvas LMS homepage for the 'Summer C Blueprint Course'. It features a welcome message: 'Welcome to Our Course! This course is being delivered completely online. Summer C Semester: May 11 - August 7'. Below the message are four buttons: 'Start Here', 'Modules', 'Syllabus', and 'Instructor'. A blue arrow points from the 'Start Here' button to the 'Start Here' link in the sidebar of the 'Week 1 Overview' slide.

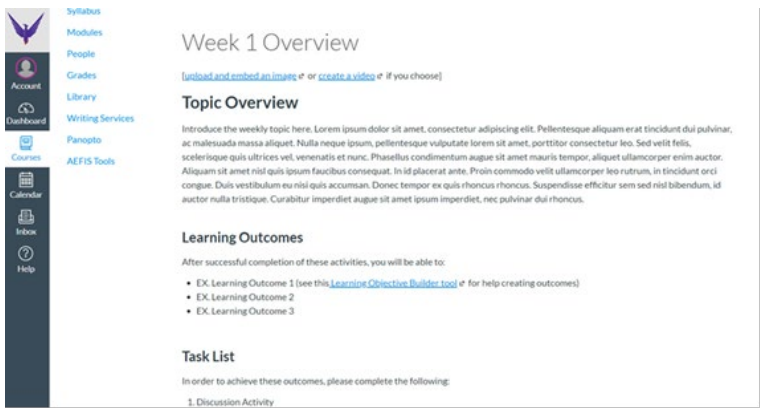

The image shows the Canvas LMS navigation sidebar on the left with links for Home, Syllabus, Modules, People, Account, Dashboard, Courses, Calendar, Inbox, and Help. The main content area displays a list of weeks: Week 1 Overview, Week 2 Overview, and Week 3 Overview. A blue arrow points from the 'Week 1 Overview' link in the list to the 'Week 1 Overview' link in the sidebar.

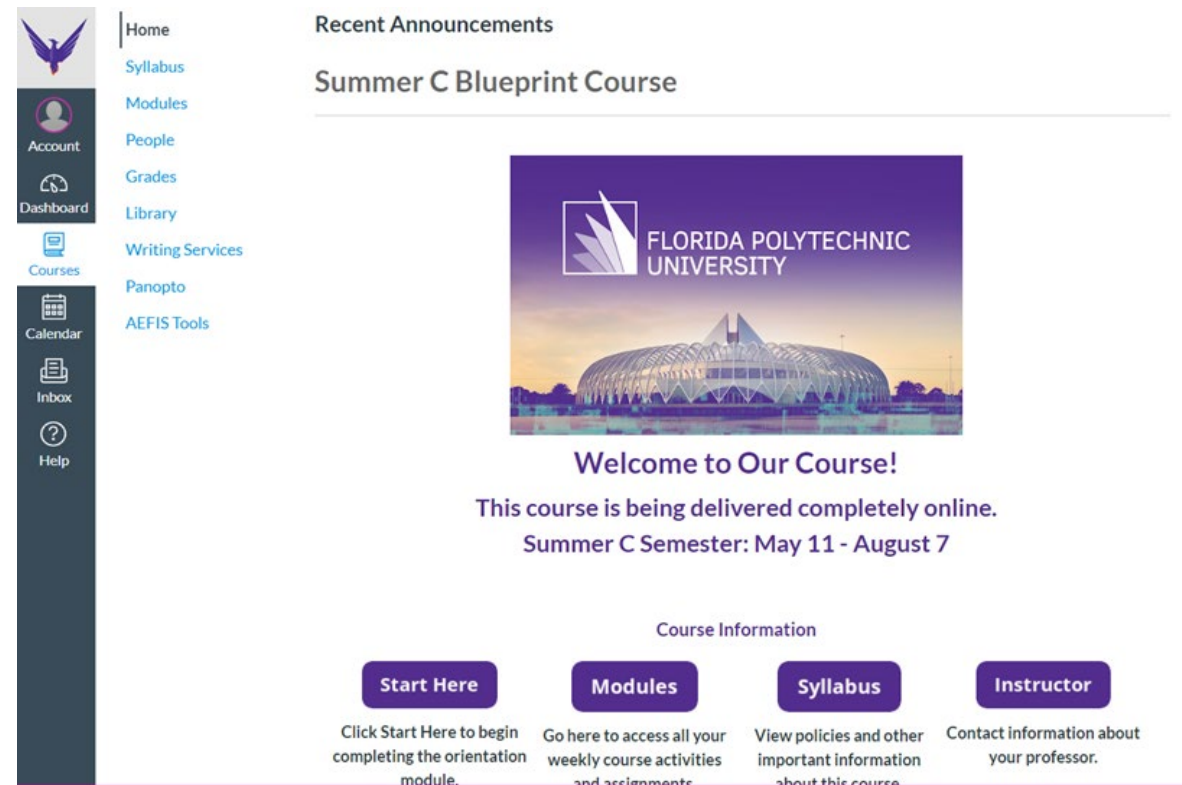

The image shows the 'Start Here' page in Canvas LMS. It features a welcome message: 'Welcome to (Name of Course)'. Below the message are two links: 'Create your own course orientation video' and 'Embed the video'. A blue arrow points from the 'Embed the video' link to the 'Embed the video' link in the sidebar of the 'Week 1 Overview' slide.

The online course starter kit is visible even without logging into Canvas:
<https://floridapolytechnic.instructure.com/courses/3982>

The image shows the 'Week 1 Overview' page in Canvas LMS. It features a 'Topic Overview' section with a paragraph of text. Below the text are two sections: 'Learning Outcomes' and 'Task List'. A blue arrow points from the 'Learning Outcomes' section to the 'Learning Outcomes' section in the sidebar of the 'Week 1 Overview' slide.

Main Page

The screenshot shows the main page of a course on the Florida Polytechnic University LMS. On the left is a dark sidebar with icons and labels for Home, Account, Dashboard, Courses, Calendar, Inbox, and Help. To the right of the sidebar is a list of navigation links: Home, Syllabus, Modules, People, Grades, Library, Writing Services, Panopto, and AEFIS Tools. The main content area has a header 'Recent Announcements' followed by 'Summer C Blueprint Course'. Below this is a large banner image of the university's modern architecture with the text 'FLORIDA POLYTECHNIC UNIVERSITY'. Under the banner, it says 'Welcome to Our Course!' and 'This course is being delivered completely online. Summer C Semester: May 11 - August 7'. At the bottom, there is a 'Course Information' section with four buttons: 'Start Here', 'Modules', 'Syllabus', and 'Instructor'. Each button has a corresponding description below it.

Recent Announcements

Summer C Blueprint Course

Welcome to Our Course!

This course is being delivered completely online.
Summer C Semester: May 11 - August 7

Inside Orientation Module

The screenshot displays the Canvas LMS interface for an orientation module. On the left is a dark sidebar with icons and labels for Account, Dashboard, Courses, Calendar, Inbox, and Help. The top navigation bar shows the breadcrumb "Summer C Blueprint > Pages > Start Here". Below this is a list of navigation links: Home, Syllabus, Modules, People, Grades, Library, Writing Services, Panopto, and AEFIS Tools. The main content area is titled "Start Here" and "Welcome to (Name of Course)". It contains a paragraph of introductory text, a list of five bullet points for video content, and a paragraph explaining the purpose of the orientation module with several hyperlinks.

Welcome to (Name of Course)

[Create your own course orientation video](#) and [embed the video](#) here if you choose. In this short video, you might:

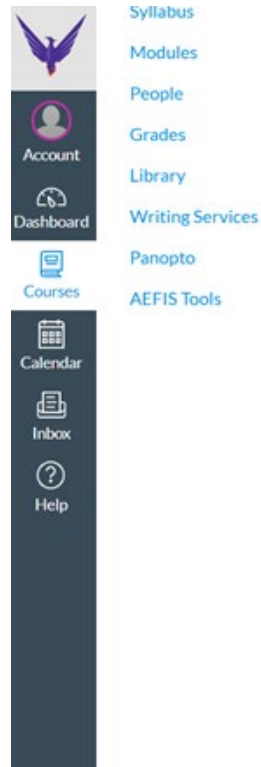

- welcome students
- introduce yourself
- introduce the course
- give a tour of how to navigate the course
- and tell students what to do the first week.

An orientation module is essential to helping your students get off to the right start and succeed in your course. The orientation module here is largely a breakdown of the syllabus. The module consists of important components that students need for course success. To ensure that students read and understand each component of the orientation module, you may consider [creating requirements for the orientation module](#) module and/or an orientation quiz ([here are some example orientation and syllabus quizzes](#)). There is an [example orientation quiz](#) in this template.
