VI. University Finance and Budget

A. University FY25 Q3 Financial Update

Dr. Allen Bottorff, Vice President and Chief Financial Officer, stated that the University is still awaiting approval of its budget from the State. A virtual meeting of the Board has been scheduled for Monday, June 30, with the goal of approving the University's Annual Budget, the Legislative Budget Request (LBR), and the Capital Improvement Plan (CIP). If this does not happen, Florida Poly will ask for a continuation budget for the new fiscal year as a backup plan.

Dr. Bottorff also provided a high-level overview of the University's financial status by reviewing four key institutional ratios: cash to current liabilities, viability, primary reserve, and net income. He confirmed that the University remains in strong financial health, with a net position that increased by 5.3% year-over-year (YOY.) Additionally, the University is currently under budget for FY25.

Trustee Ilya Shapiro inquired about the budget range being considered and whether a specific range has been established. Dr. Bottorff responded that the State is aiming to reduce its budget by an additional \$2.8 billion. He noted that higher education may face significant challenges over the next two years as a result. The University is preparing for several scenarios, including a flat budget with no cuts, as well as reductions of 3% and 7%, with plans to adjust funding based on the final appropriation received.

VII. University Facilities Planning, Design, and Construction
