Updated 11.9.2026

University Final Examination Instructions

- **Standard Exams:** Find your course's regular weekly meeting days and start time listed inside the grid above. Your exam will take place on that day during the designated 2-hour Exam Time Block shown in the far-left column. All standard exams are held in the same classroom where your class met during the semester.
    - *Please Note: To accommodate a conflict-free campus schedule, your exam block may start slightly earlier or later than your normal class start time (for example, a standard TR class that usually meets at 9:30 AM will take its exam in the 8:00 AM - 10:00 AM time block on Thursday).*

- **Block Final Exams**: All classes noted as **Block Exams** above will have their examination on the assigned block day and time, regardless of when the individual class sections meet during the semester. These block exams are highlighted in **bold** in the table above.
    - **Exam Locations:** Block exams meet in larger, combined rooms. Your specific exam room is noted directly under the course title in the grid above, and your instructor will confirm your exact room assignment on Canvas.
- **Student Conflicts:** If you have an exam time conflict, you must inform both of your instructors immediately. The instructor of the highest-numbered course is required to provide a make-up exam during finals week.
- **Three Exams on One Day:** If you are scheduled for more than two exams in a single day, you may request a make-up exam for your highest-numbered course from your instructor.
- **Course Exclusions:** Laboratory courses ending in "L" or "C" hold assessments during the regular semester and do not meet during finals week. Capstone, Senior Design, Thesis, Independent Research, and online courses do not have scheduled final exams.
