## II. GENERAL

Expense cards will be issued to those people who are in a fiscally responsible position and may only be used for official, university-related purposes. Purchases must follow appropriate state laws and University rules and policies and must be made with reasonable judgment. If there is a question about the official purpose of a purchase or if the use of the Expense card to make a purchase is questionable, contact the Procurement Department Office at (863) 874-8583 or (863) 874-8429 for clarification.

Expense cards are issued to individuals who complete training and may only be used by the individual whose name appears on the card. Cards are not issued to a department, university vehicle, function or location.

State and University contract merchants/vendors should be used to purchase commodities unless the needed commodities are not available through state or University contracts. A list of state contracts and vendors can be obtained from the State of Florida Contracts and Agreements website.

Any employee who knowingly and willingly makes purchases or attempts to make purchases that violate state laws, University Expense card policy, or procedures contained in this manual or assists another employee in such purchases, or fails to report a known violation, may be subject to disciplinary action in accordance with the Cardholder Agreement.

Cardholders are encouraged to use certified State of Florida minority merchants, PRIDE of Florida (commodities made by prisoners), and purchase commodities that are made of recycled material or of recycled content.

Contact the Procurement Office for non-routine or questionable purchases before the purchase is made. For example, equipment that must meet specific requirements, critical delivery schedules, or assurance of compatibility with existing equipment might require the use of a purchase order to ensure that specifications are met.

Computer equipment and subscription software must be approved by IT **BEFORE** Expense card purchase is made and following the amounts authorized as stated in sections VI and VII. IT approval must be attached to the Expense Report in Workday.

All transactions conducted within the State of Florida are exempt from State Sales and Use tax. The University's tax exemption number for the E-Card program is listed on each Expense card. Federal or local taxes are not exempt.

Merchants should not charge the Expense card account until the merchandise is received by the cardholder or shipped by the merchant. Backorders may not be charged by the merchant in advance of shipping.

The merchant should ship the delivery receipt and the item purchased directly to the cardholder or designated departmental receiving point. Do not send items to Central Receiving that are purchased with the E-Card. Under no circumstances shall items be

sent to the Cardholder's residence.

The University's Office of Inspector General and/or Controller's Office will perform periodic post audit review of Expense card activity.

Expense Cards will be immediately canceled and destroyed if the Procurement Department is notified that:

- 1) Cardholder terminates employment
- 2) Cardholder no longer requires an Expense Card
- 3) Cardholder reports the loss or theft of Expense Card
- 4) Cardholder misuses the Expense Card
- 5) Termination of any grant, contract or budget authority for which the card was issued exclusively.

### **Infraction Policy:**

- 1) 1st Occurrence: Counseling and/or reduction of privileges
- 2) 2nd Occurrence: Reduction of privileges or revocation of Expense Card

## **III. GUIDELINES**

### **A. Card Issuance and Cancellation**

The Expense Card Administrator (Procurement Department) is responsible for all card issuance and cancellation.

Cards must be returned to the Expense Card Administrator (Procurement Department) when cardholder changes departments within the University or terminates employment with the University or when cardholder no longer requires a card.

### **B. Expense Card Limitations And Restrictions**

Individual cardholder controls are determined by the cardholder's profile. Cardholder profiles are determined by Deans, Directors or Department Heads and approved by the Expense Card Administrator. (Procurement Department)

The Expense Card Administrator (Procurement Department) is responsible for establishing and maintaining cardholder profiles.

### **C. Cash Advances / Gift Cards**

Under no circumstances are cash advances, gift cards or gift certificates allowed on University Expense Cards.

### **D. Expense Card Security**

Use of the Expense card is limited to the University employee whose name appears on the face of the card. The Expense card must not be loaned to another person under any circumstances. If a cardholder is absent for an extended period of time, the department should seek to obtain another card for a different designated employee, either temporarily or permanently.

Each cardholder is responsible for the security of his/her card. All precautions should be used to maintain confidentiality of all information relating to the card, such as the cardholder account number, expiration date, and CVV number. (Security code).

The Expense Card account number should never be left in a conspicuous place.

E. Reconciliation Of Charge Receipts:

Effective October 3, 2016, a reconciliation between the Cardholder's charge receipts and what is reported by Bank of America will be handled through the Expense Report process in Workday.

It is suggested that the Cardholder's Supervisor review the expense reports periodically to consider appropriateness of purchases, especially when said Supervisor is not acting as the cost center manager (Approver) in Workday. Internal control plans call for periodic audits of the program by FL POLY's Internal Audit. These audits may include, but are not limited to, the verification of proper scanned attachments (receipts) and the appropriateness of purchases.

F. The Payment Process:

The University is responsible for assigning persons to authorize the approval of expense reports daily.

The approver (or his/her delegate) must be independent of the cardholder.

Expense card charges are received by the University on a daily basis and should be authorized/paid as follows:

E-Card charges must be approved timely, within ten (10) working days after receipt of the transaction into Workday. The 10-day approval period includes the entire approval process, including the submission of a receipt (Cardholder), the creation of an expense report in Workday (Cardholder or Cardholder's Delegate) and the review of budget authority and appropriateness (Cost Center Manager). The combined time for submission of all receipts and approval may not exceed ten (10) working days. A program area not meeting this requirement will jeopardize its participation in the Expense Card Program.

G. Training and Information

All cardholders must have received, reviewed and understood the E-Card User Manual/Certification Training on the policies and procedures associated with the Expense Card Program. They must be informed of Expense card statements and

other sources of information relevant to the program.

#### H. Encumbrance

The Expense Card Program was established, in part, to lessen the amount of paperwork and processing time currently needed for small dollar purchases. Therefore, the Expense card charges will not be systematically encumbered.

#### I. Registrations & Memberships

Registrations and Organizational Memberships may be processed using a university issued E-Card. While this is the preferred method of payment, Procurement will continue to accept requisitions as well. As always, please ensure that these, and all other charges, are appropriate expenditures against the charged index and that you have the proper departmental approval, as required. **Also note that travel accommodations are only permitted on specific E-Cards that are approved for travel.**

##### **Registrations:**

- 1) E-Card Cardholders may place registrations directly with the organization either in person, by phone, fax, Internet or by mailing the registration form. The VISA account number should be properly indicated on the form.
- 2) A copy of the registration form will serve as the receipt and should be included in the expense report. Each registration form should include the name of the conference, the date(s), the person(s) attending and Spend Authorization number(s), conference location, and cost.
- 3) A "Benefit to State" justification shall be written and included in the expense report. This justification, along with the registration form, shall constitute a "Receipt". Examples:

  - b) Recruitment Example: To attend a series of college recruitment events. The events will be throughout XXXXXX (Cities or Counties or "South FL; Central FL, etc.). This will enhance the visibility of Florida Polytechnic University.
- 4) Group registrations may be charged to a single card provided the individual participants are broken down by line and there is a name and Spend Authorization number for each in the description field. Be sure to retain the benefit to state and registration form as your receipt.

##### **Organizational Memberships & Dues:**

- 5) Florida statutes require that public funds not be used for dues to any association, group or organization the records of which are not open for inspection by any Florida citizen.

- 6) Membership dues and/or renewal forms may then be placed directly with the organization in person, by phone, fax, Internet or by mailing the appropriate payment form. The membership form must indicate group, departmental or organizational membership unless an individual membership is available at a lower cost and is desired. The following documents shall serve as the E-Card receipt and must be included with the expense report upon the payment of membership dues:
